

♥ Day 16 Python Mission

Hi Lovely (my sweet Laddoo),

I'm so proud of how consistently you're learning. Every little program you write makes you stronger than yesterday.

Don't worry about making mistakes—they're part of becoming a great programmer. Just keep practicing a little every day.

Today we'll learn one tiny new concept: not operator.

Python Missions

1. Print not True.
2. Print not False.
3. Check not (5>2).
4. Use if not (age>=18): print('Minor').
5. Print numbers 1 to 3.
6. Ask user for city.
7. Create food variable and print it.
8. Check not (10<20).
9. Print 'Keep Smiling'.
10. Print 'Day 16 Complete!'

With lots of love,

♥ Day 17 Python Mission

Hi Lovely (my sweet Laddoo),

I'm so proud of how consistently you're learning. Every little program you write makes you stronger than yesterday.

Don't worry about making mistakes—they're part of becoming a great programmer. Just keep practicing a little every day.

Today we'll learn one tiny new concept: string length using len().

Python Missions

1. Create name='Lovely' and print len(name).
2. Ask user for a name and print its length.
3. Print len('Python').
4. Create city='Delhi' and print len(city).
5. Print numbers 1 to 5.
6. Create fruit variable.
7. Ask favorite color.
8. Print len('Hi').
9. Print 'Great Job!'.
10. Print 'Day 17 Complete!'

With lots of love,

♥ Day 18 Python Mission

Hi Lovely (my sweet Laddoo),

I'm so proud of how consistently you're learning. Every little program you write makes you stronger than yesterday.

Don't worry about making mistakes—they're part of becoming a great programmer. Just keep practicing a little every day.

Today we'll learn one tiny new concept: `.upper()` and `.lower()`.

Python Missions

1. Create name='lovely' and print name.upper().
2. Create city='DELHI' and print city.lower().
3. Ask user for name and print it in uppercase.
4. Print 'python'.upper().
5. Print 1 to 4.
6. Create pet variable.
7. Print 'HELLO'.lower().

8. Print 'Keep Learning'.
9. Print your favorite fruit.
10. Print 'Day 18 Complete!'

With lots of love,

♥ Day 19 Python Mission

Hi Lovely (my sweet Laddoo),

I'm so proud of how consistently you're learning. Every little program you write makes you stronger than yesterday.

Don't worry about making mistakes—they're part of becoming a great programmer. Just keep practicing a little every day.

Today we'll learn one tiny new concept: string concatenation (+).

Python Missions

1. Create first='Hi' second='Lovely' and print first+' '+second.
2. Join city and country.
3. Ask first name and print 'Hello '+name.
4. Create food='Mango' and print 'I like '+food.
5. Print 1 to 3.
6. Create age variable.
7. Print 'Python'+ ' Rocks'.
8. Print 'Awesome!'.
9. Revision: len('Cat').
10. Print 'Day 19 Complete!'

With lots of love,

♥ Day 20 Python Mission

Hi Lovely (my sweet Laddoo),

I'm so proud of how consistently you're learning. Every little program you write makes you stronger than yesterday.

Don't worry about making mistakes—they're part of becoming a great programmer. Just keep practicing a little every day.

Today we'll learn one tiny new concept: Simple revision of strings and operators.

Python Missions

1. Print your name in uppercase.
2. Print `len('Lovely')`.
3. Join `'Good' + ' Morning'`.
4. Print `not False`.
5. Check `5 > 2` and `8 > 4`.
6. Check `5 > 9` or `2 < 4`.
7. Print numbers 1 to 5.
8. Ask favorite food.
9. Print `'I love Python!'`.
10. Celebrate by printing `'Day 20 Complete!'`

With lots of love,
