

Day 4 Python Mission ♥

Hi Lovely (my sweet Laddoo),

Happy Day 4! ☺ I'm so proud that you've been learning consistently. Every day you're getting a little stronger in Python. Don't worry if something feels difficult—every programmer starts exactly where you are. Keep smiling, keep practicing, and remember that I believe in you. ♥

Mission 1: Print Hello, Lovely! three times.

Mission 2: Create variables name, age, and city, then print them.

Mission 3: Ask the user for two numbers and print their sum.

Mission 4: Ask the user for their favorite color and print: Your favorite color is ...

Mission 5: Create a variable marks = 85 and print whether marks >= 35.

Mission 6: Ask the user for their age and print what their age will be after 10 years.

Mission 7: Print numbers from 10 down to 1 using a loop.

Mission 8: Print a ☐ (star) five times using a loop.

Mission 9: Check whether 7 != 5 and print the result.

Mission 10: Print: See you tomorrow for Day 5! ♥

A little note for my Lovely ♥

You're doing an amazing job by showing up every day. Small daily steps create big success. I'm cheering for you, always. Keep learning, keep smiling, and enjoy the journey. ♥

With lots of love,

Your biggest supporter ♥
