

♥ Day 21 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: String `.strip()`

Python Missions

1. Create `name=' Lovely '` and print `name.strip()`
2. Ask user for a name and use `.strip()`
3. Print `' Hi '`.strip()
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: `5>2` and `7>3`
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 22 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: String `.replace()`

Python Missions

1. Create `text='I like tea'` and replace tea with coffee
2. Print `'banana'.replace('a','*')`
3. Ask user for a word and replace first letter with '*'
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: `5>2` and `7>3`
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 23 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: String `.startswith()`

Python Missions

1. Check if `'Python'.startswith('Py')`
2. Check if `'Lovely'.startswith('Lo')`
3. Ask user for text and check `startswith('A')`
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: `5>2` and `7>3`
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 24 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: String .endswith()

Python Missions

1. Check if 'photo.jpg'.endswith('.jpg')
2. Check if 'Python'.endswith('on')
3. Ask user for filename and check endswith('.txt')
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: $5 > 2$ and $7 > 3$
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 25 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: String slicing

Python Missions

1. `word='Python'; print(word[0:3])`
2. Print first 2 letters of 'Lovely'
3. Print last 3 letters using slicing
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: `5>2` and `7>3`
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 26 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: Negative indexing

Python Missions

1. `word='Python'; print(word[-1])`
2. Print second last letter
3. Print first and last letter
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: `5>2` and `7>3`
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 27 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: String repetition (*)

Python Missions

1. Print 'Hi '*3
2. Print '* '*5
3. Create smile='😊' and print smile*4
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: 5>2 and 7>3
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 28 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: in operator

Python Missions

1. Check 'a' in 'cat'
2. Check 'z' in 'python'
3. Ask user for a word and check if 'e' in it
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: $5 > 2$ and $7 > 3$
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 29 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: Simple string revision

Python Missions

1. Print your name.upper()
2. Print len('Python')
3. Join 'Good'+' Luck'
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: $5 > 2$ and $7 > 3$
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥

♥ Day 30 Python Mission

Hi Lovely (my sweet Laddoo),

Every small step you take is bringing you closer to becoming a confident programmer. I'm really proud that you keep showing up every day.

Today's goal is tiny and simple. Learn one new thing, revise a little, and enjoy the journey. You've got this! ☐

Today's new concept: Mini revision challenge

Python Missions

1. Create one program using input()
2. Use upper() or lower()
3. Use len() in same program
4. Print numbers 1 to 5
5. Create a fruit variable and print it
6. Ask favorite color
7. Print 'Keep Learning!'
8. Revision: print not False
9. Revision: $5 > 2$ and $7 > 3$
10. Print 'Day Complete!'

With lots of love,
Your biggest supporter ♥
